

[Connecticut Clockmaker—Botsford]

[SBH?] 12/18/39

Connecticut Clockmaker - Botsford

[19?] papers, chiefly about Botsford; early history of the town of Thomaston, the Seth Thomas works and factory, etc.

Botsford repeatedly states that he does not wish his name or identifying material about himself to appear. This makes some of the material unusable. Most of the material, however, together with the MacCurrie series could be reworked either here or by the writer Donovan into an interesting pamphlet about Thomaston.

Papers 7, 17 and 18 taken out of this folder to use in Clockmaker piece is Yankee Folk. Can, of course, be used in part in the suggested Thomaston piece, see above.
